

MINUTES OF NORTH LAWRENCE FISH & GAME SENIOR CLUB

NOVEMBER 7, 2024

To an almost full room President Jeff Barnhart opened the Nov. 7, 2024 meeting with the Pledge of Allegiance.

Frank spoke about the installation and operation of the new card reading gate system. The concrete was mixed with the help of volunteers for the installation of the card reader. Connecting wires have been run the Scout House for the tracking and operating equipment. All provisions have been considered for future, modification and expansion of the system. The upgraded system is designed to track the members both entering and exiting, which will hopefully decrease any and all mischief.

We also discussed the necessity of water diversion and control entering the lake. It was very informative and important.

Mike again volunteered to manage the swap meet again this winter. There is a need for about 5 volunteers to make it work. Please contact a board member if you can help.

This month's show and tell was military knives. Many members participated and there were a large number of items displayed.

Next month's show and tell will be a trade fair for members only. If you have any shooting, archery or fishing equipment that you would like to sell bring it

along. You must have a written description, price and your name and phone number for each item. Buying and selling cannot take place during club business.

A special thanks for those who have volunteered for club officers, maintenance, activities and events. Please remember meeting attendance. Be sure and inquire at club office for club logo coffee cups and hats. There are also M-1 rifle raffle tickets available.

Minutes by Recording Secretary, Garland Parsons
